

What courses do I need to take to support my plans beyond USS?

First, get to know yourself, consider your talents, interests, skills, and dreams. Then, explore different career pathways, and online quizzes. You will do some of this in Grade 10 Career Life Explorations (CLE 10), however you can explore more here:

<https://careerdiscoveryquizzes.workbc.ca/#career-quizzes>

<https://ikigaitest.com/>

Next, identify Colleges, Universities, or Trade Schools that offer the training you need to follow your path. By identifying the programs you are interested in, you can discover the courses you *need* to take to enter into the post-secondary programs you want. Discover BC's public Colleges, Universities, and Trade Schools on:

<https://www.educationplannerbc.ca/>

To find out more about specific programs, privately funded institutions, or schools in other provinces; please look at their specific website and find the prerequisites for the program you are interested in.

To discuss your options further, make an appointment with our school counsellor using the booking link:
