Technology Use Agreement Form

Part 1 – District Technology, Network, and Internet access

A. Introduction and Overview

The primary purpose of School District 70 Learning Resources Network is to support and enhance learning and teaching that prepares students for success. Providing access to SD70's network and the internet is an investment in the future of both our students and staff.

B. Types of Access Provided to Users

Users in SD70 must ensure that all materials accessed are consistent with district-adopted guidelines, supporting and enriching the curriculum while taking into account the varied instructional needs, learning styles, learning abilities and development levels of the students. Furthermore, users are to behave in an ethical and responsible manner while using school computers as they are expected to behave during any other school activity.

C. Vision of Technology's Role in Education

The staff in SD70 believe that electronic communication is a tool for life-long learning, and that access to SD70's network and the internet is one of the resources that promote educational and organizational excellence. We believe the responsible use of the network will assist schools with their understanding of the information age by allowing students and staff to significantly expand their knowledge by accessing and using information resources, and by analyzing, collaborating, and publishing information.

D. Terms and Conditions for Acceptable and Unacceptable Use

Students and staff should use SD70's network and the internet in a responsible, efficient, ethical, and legal manner. The use of SD70's network and the internet is a privilege, not a right, which may be revoked at any time for inappropriate behaviour. Users must be vigilant in ensuring the security of the network. Users must not give out personal information (complete names, addresses, telephone numbers, and identifiable photos). Users assume responsibility for understanding the policy and guidelines as a condition of using SD70's network and the internet. Staff members are accountable to teach and use SD70's network and the internet responsibly. Use of SD70's network and the internet that is inconsistent with these guidelines may result in loss of access as well as other disciplinary or legal action.

E. Implementation and Enforcement Procedures

To access the SD70 network and the internet, student users must sign the Acceptable Use Agreement form along with a parent/guardian signature. Each user will be given their own password to access the system. All users must protect their password and not share it with anyone else.

F. Consequences of Misuse for Specific Levels of Violations

Violations of school and school district networked information resources policies could result in the loss of access to electronic resources. Additional disciplinary action may be determined at the building and/or classroom level in line with existing practice regarding language and behaviour. This may range from loss of access to suspension from school. When appropriate, law enforcement agencies may be involved.
